

Learning from Home

We are now learning from home.

This may be reading books,

working on packets,

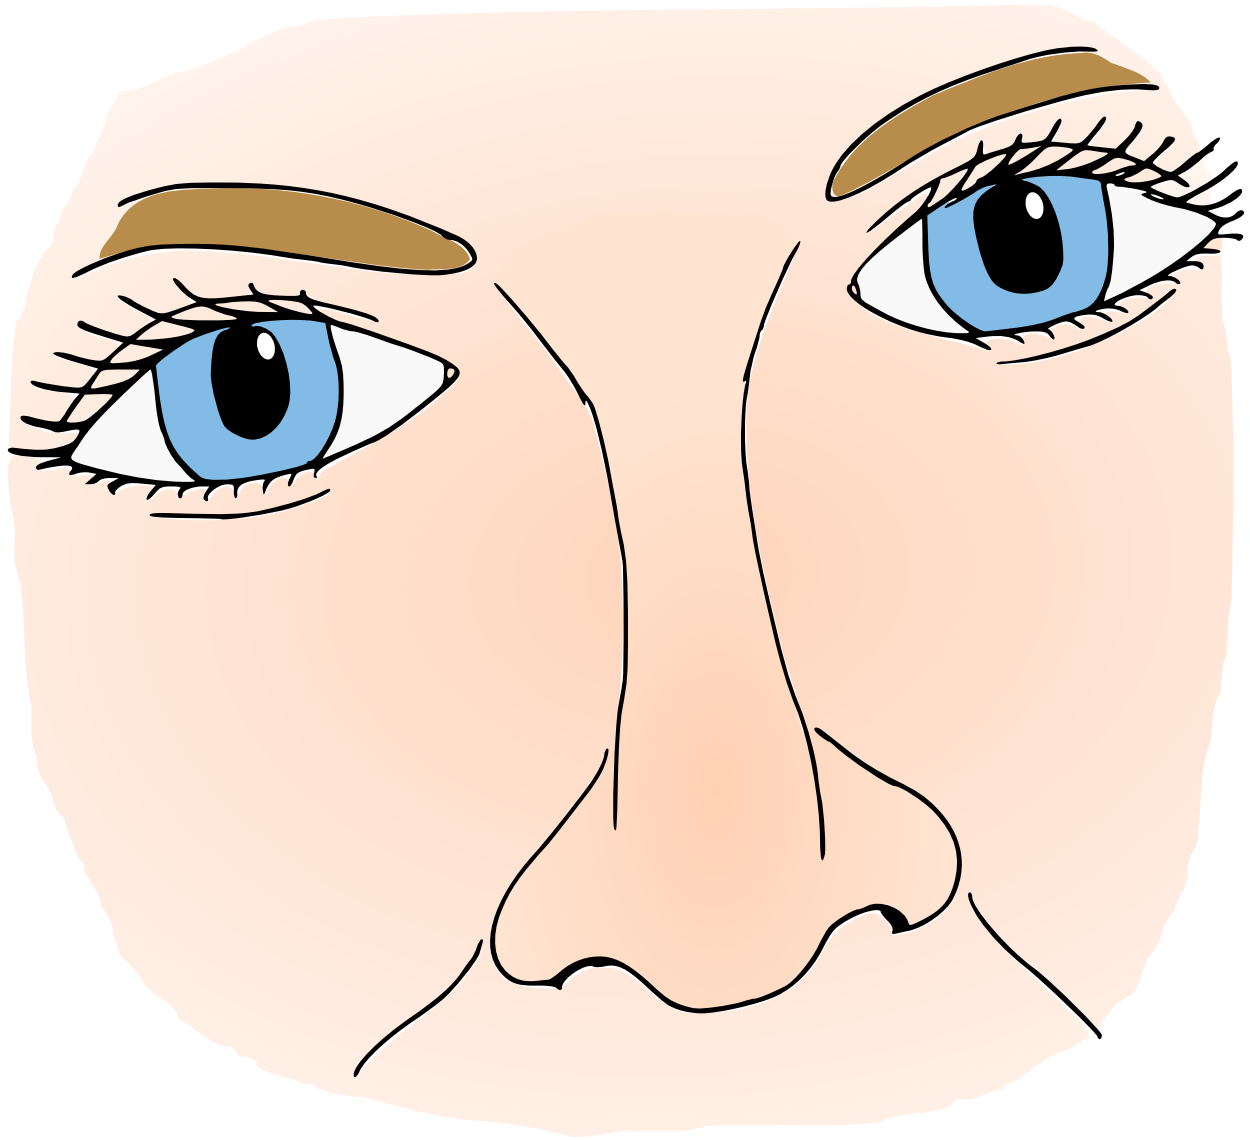

or meeting on electronic devices with
our teachers.

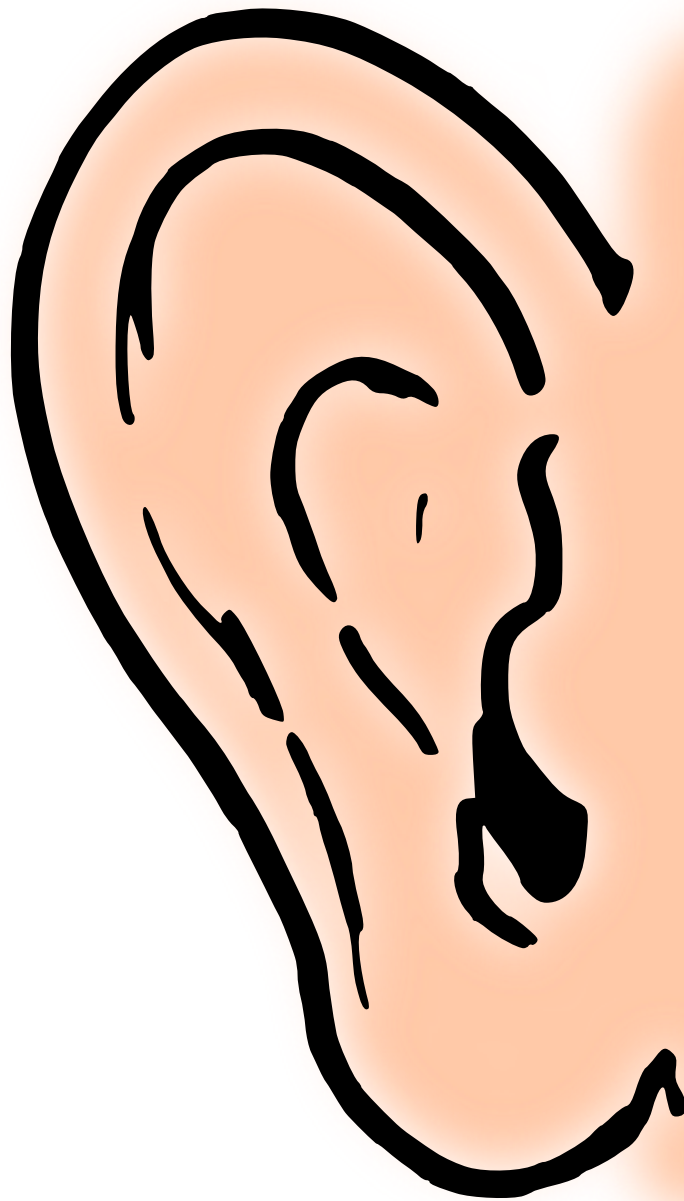

Learning on the computer may seem confusing. This is your new classroom and how you will see your teacher.

When you see your teacher's face on
the screen, you will stop,

look with your eyes,

and listen.

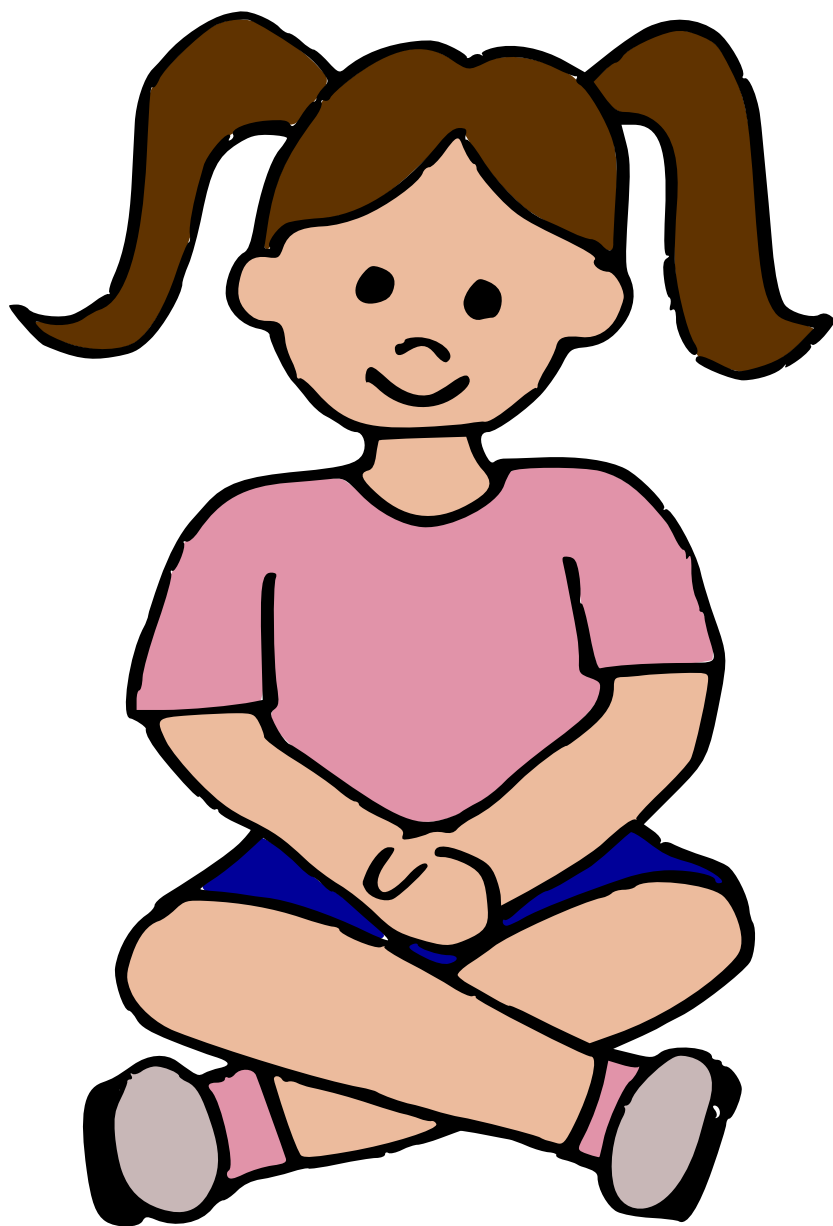

It is my job to stop what I am doing.

I will then look at my teacher on the screen.

I will listen to what my teacher is saying.

I will also stay in my seat and learn
with my class.

Me and my classmates can learn with my teacher on the electronic device.
