

Title I Schoolwide Plan

Please use the assigned Nebraska Department of Education
County District School Number in the table below.

Date of Review:		04/16/2025	
District Name:		Wheeler Central Schools	
School Name:		Wheeler Central Elementary	
County-District-School Number: XX-XXXX-XXX		92-0045-002	
Grades Served with Title I-A Funds: (PK is rarely served)		K-6	
Preschool program is supported with Title I funds. (Mark appropriate box)			<input type="checkbox"/> Yes x No
Summer school program is supported with Title I funds. (Mark appropriate box)			<input type="checkbox"/> Yes x No
Indicate subject area(s) of focus in this Schoolwide Plan.		<input checked="" type="checkbox"/> Reading/Language Arts <input type="checkbox"/> Math <input type="checkbox"/> Other <input type="checkbox"/> (Specify)_____	
School Principal Name:		Makayla Reiter	
School Principal Email Address:		mreiter@wbroncs.org	
School Mailing Address:		600 W. Randolph St. P.O. Box 68 Bartlett, NE 68622	
School Phone Number:		308-654-3273	
Additional Authorized Contact Person (Optional):		Shawna Schlenger	
Email of Additional Contact Person:		sschlenger@wbroncs.org	
Superintendent Name:		Daniel Kluver, Sr.	
Superintendent Email Address:		dkluver@wbroncs.org	

<u>Names of Planning Team</u> <i>(include staff, parents & at least one student if Secondary School)</i> Kimmie Reed Makayla Reiter Shawna Schlenger Patti Jensen Shari Lovitt Chelsea Sallach Stefanie McCain Katlyn Miller _____ _____ _____	<u>Titles of those on Planning Team</u> Parent Administrator Title I Coordinator/Teacher ELA Teacher Classroom Teacher Community Member/Sped teacher ELA Teacher/Parent School Counselor _____ _____ _____

School Information <i>(As of the last Friday in September)</i>		
Enrollment: 69	Average Class Size: 10	Number of Certified Instruction Staff: 9
Race and Ethnicity Percentages		
White: 95 %	Hispanic: 5 %	Asian: 0 %
Black/African American: 0 %	American Indian/Alaskan Native: 0 %	
Native Hawaiian or Other Pacific Islander: 0 %	Two or More Races: 0 %	
Other Demographics Percentages <i>(may be found on NEP https://nep.education.ne.gov/)</i>		
Poverty: 39 %	English Learner: 3 %	Mobility: 2.75 %

Assessments used in the Comprehensive Needs Assessment (ie. NSCAS, MAP, ITBS, AIMS web, DIBELS, CAT etc.)	
NSCAS	MAP
Acadience Reading	

Confirm all Instructional Paras are Qualified according to ESSA.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
--	--

The Schoolwide Plan must be made available to the School, Staff, Parents, and the Public via the school's website.

Please write a narrative in each box below to correspond to the Rating Rubric.

1. Comprehensive Needs Assessment

1.1	<p><i>Please provide a narrative below describing how data was used from a comprehensive needs assessment of the entire school to identify the needs of all children, particularly those who are failing, or are at-risk of failing to meet State academic standards, and how this analysis was used to plan curriculum, instruction, and assessment decisions.</i></p>
	<p>The Wheeler Central students take the MAPS assessment in the fall and spring and grades 3-11 take the NSCAS assessment in the spring of every academic year. Students are also assessed using Acadience Reading & Acadience Math assessments in the fall, winter and spring of every year. We have School Improvement meetings built into our academic calendar and we use some of this time to look at the data from assessments and come up with an action plan for each grade level, identifying students that are at risk. Teachers are split according to grade levels and then review the data as small groups. Each group analyzes their grade level data and then identifies strengths, weaknesses, and implications for each category. Classroom teachers then utilize the data and action plan to target instruction to areas that are weak. Data from MAPS, Acadience Reading, NSCAS, etc. is also compared to assess whether the student is weak in an area across the board or if it was just one area on a certain assessment. We also use the information to target instruction for the students that are at risk and need Title I intervention or more classroom instructional support.</p> <p>We have worked closely with ESU 8 to create our MTSS plan and our first two years of implementation focused on strengthening our core reading program. This past couple years we focused on strengthening our interventions and our decision rules of where to place students during our intervention/enrichment time. Next year, we will continue to focus on targeting those interventions to try to close those gaps in reading achievement.</p>
1.2	<p><i>Please provide a narrative below describing how information from parents and community was gathered to identify the needs of the school.</i></p>
	<p>We held the annual Title I meeting during our Back to School Bash on August 13, 2024. Family Literacy Night was held on Monday, Mar 17, 2025 .</p> <p>Like in years past, we asked parents to complete a survey targeting their input on the needs of the school. The survey is in Google Form format and parents and community members could scan a QR code that would take them directly to the survey. A link to the survey was also sent out in a mass text alert containing a live link for parents and community members to fill out. We struggle to get parents and community members to respond to the survey and are looking at other ways to try to gather more input.</p> <p>The results from the past surveys completed during our annual meeting indicated that most people had some understanding of the purpose and goals of our Title I program and how a child qualifies for assistance. The majority of surveys indicated that they would like more communication from the school and Title I teachers about Title I services, their child's progress in Title I, and what children must accomplish in order to exit from the Title I program. To provide this to parents, we have begun sending out progress monitoring reports more with report cards. We have also published articles in the school newspaper about Title I.</p> <p>We adopted PBIS in the summer before the 2021-2022 school year and we are now working on implementing PBIS expectations in the classroom. Our first few years were spent focusing on the common areas of the school. Part of this process surveyed parents, students and staff members about their perceptions of the needs of the school. Stakeholders are also asked to complete a perceptual survey annually and those results are interpreted by the administrative team.</p>
1.3	<p><i>Please provide a narrative below describing the on-going improvement efforts, which should support the Continuous School Improvement Plan.</i></p>
	<p>Wheeler Central School is committed to an ongoing School Improvement Plan. Our vision is to work together in a positive, challenging environment, using various strategies to reach success. Our CIP goal is all students will</p>

improve content area vocabulary knowledge with an emphasis on writing. This goal aligns with our MTSS plan and our ILCD-TIP. Areas of curriculum and school process are targeted for improvement and continuous review. Current areas are Reading, Math, Science and Social Studies. The continuous review process provides for professional development activities designed to help school staff provide instruction to impact student achievement.

Wheeler Central just completed year 5 of our School Improvement cycle at the end of the 23-24 school year, wrapping up our cycle with an external review with NDE. Continuous review process involves community members, parents, and instructional review. The school improvement process is aligned with the Title 1 Program. Students' achievement and school data will be compiled and used for assessment and for the Quality Reviews for the Title 1 Program. Currently, we are focusing on refining our new CIP goal, diving into the data, and trying to figure out where our largest needs are.

In the spring of 2003 Wheeler Central Schools joined with 11 other schools in our area to form Northern Tier Schools. This was done so the 12 schools could act as one district to report more reliable data to the state standards. Members from each school met and wrote a Northern Tier School Improvement Action Plan that will help students improve their reading across the curriculum. Wheeler Central School's Improvement Plan, as well as its Schoolwide Title 1 Plan and MTSS CIP plan supports the Northern Tier's Action Plan.

2. Schoolwide reform strategies

2.1

Please provide a narrative below describing the additional assistance provided for students at risk of not meeting the challenging state academic standards.

The schools making up the Northern Tier, which Wheeler Central is a member of, reviewed their Terra Nova scores for grades 3-11 and DIBELS scores for grades K-3. (In 2018, DIBELS next was changed to Acadience reading and in 2013 we shifted to MAPS testing.) After analyzing the data and discussing the need to raise reading scores the decision was made by the Northern Tier Schools to implement the Reading Mastery in grades K-3. Reading Mastery is a scientifically based reading program distributed by SRA. Two years after implementing Reading Mastery in the K-3 grades it was decided to expand it to grades 4-6. This was decided after reviewing the data for the upper elementary classes and the noticeable improvement in the lower elementary classes. In 21-22, we adopted Core Knowledge Language Arts as the main reading program utilized in grades K-5, with 6th grade implementing novel studies into their program. Grades 6-12 have adopted Pearson's My Perspective reading program, and it has been fully implemented since last school year. Acadience Reading assessment is given three times a year to students in K-6. Acadience Progress monitoring is used to help track students' progress throughout the year to see if interventions are effective. After reviewing the latest MAPS test scores, NSCAS test scores, and conducting a standards review, it was decided to replace Saxon math with the Zearn math program in the 2020-2021 school year.

Strategies to address needs of all children, including those at risk:

1. Core Knowledge Language Arts is the main reading/language arts program in K-5 (Scientifically Based Program); 6th Grade utilizes Novel Studies
2. Acadience Testing for grades K-6 (Scientifically Based Program) & Phonological Awareness Screening Test (PAST) is given to any student identified as being well-below the benchmark.
3. In the summer of 2020, after a curriculum review of our elementary math program and state standards, our district adopted Zearn math as our core curriculum at the start of the 20-21 school year. Prior to that we had been using Saxon math since 2012.
4. Many of the elementary classrooms have smart boards or Tango Touch boards in them and all are 1:1 with iPads or Chromebooks for student use. Students are able to access programs such as Xtra math, Prodigy, IXL, EPIC (reading), Accelerated Reader, Khan Academy, etc. for more practice in skills.
5. The 7-12th grade students are involved in our school's 1:1 laptop initiative.
6. Our media specialist assists elementary students with their library and computer skills.
8. In the Spring of 2010 preschool was offered at Wheeler Central School. For the 2018-2019 school year, we implemented a full day program for students entering kindergarten the following year. Students in the half day

program attend 4 days a week for 4 hours a day and those in the full day program attend four full eight hour days. Breakfast and lunch is offered along with 1 healthy snack.

9. The School Improvement team meets once a month to discuss needs of students based on assessment data and provide targeted professional development to help meet the needs of all students.

10. The Junior High and High School teachers have implemented a Homework Club. Homework Club is held right after school and members are chosen by previously not turning in homework. This has helped students learn to manage their time wiser and make homework a priority. Elementary teachers and staff are also available before and after school hours for students on an as needed basis. The elementary school has also implemented a Homework Club similar to what is used in the Jr. & Sr. High School for our upper elementary aged students.

11. On to College, an ACT study program by John Baylor is offered to our Sophomore, Junior, and Senior students. This helps prepare them for the ACT.

12. A Schoolwide Title 1 coordinator/teacher's responsibility is to implement the Schoolwide plan, to monitor implementation, document evidence of success, make adjustments as needed, be responsible for following Title 1 regulations and also submit the Schoolwide plan for the following years to come. A committee is formed to assist the Title 1 teacher in assessing the plan and suggesting strategies to improve the plan.

13. We have added IXL, a program to target specific skills aligned with state standards, as an addition to the current curriculum being utilized. Students have access to this program in the classroom and at home.

14. Wheeler Central is continuing to refine our MTSS plan. We have implemented a common intervention/enrichment time in the elementary, to target intervention and enrichment needs. We also strengthened our core reading curriculum and have seen tremendous gains in our reading scores. We will focus next year on adding a reading intervention for those older students in upper grades that still aren't at benchmark.

15. The Title I teacher, classroom teachers, and certified paraprofessionals provide assistance and intervention to students labeled at risk.

16. All elementary students participate in weekly guidance counseling groups within their classroom, providing them time to work with students on social-emotional skills, making good choices, and other character education programs. Students also have access to services through our school psychologist to serve those kids with increased social-emotional or behavioral needs.

17. Students in grades K-6 participate in the Accelerated Reading program. Students are encouraged to read and meet quarterly goals. Prizes are awarded for each milestone met throughout the school year and students are awarded with an AR party at the end of the school year. Books in the library are separated by reading levels and students are assisted by their teacher, the media specialist or para to find books in their reading levels.

18. Wheeler Central started a Teammates mentoring program during the 2018-2019 school year. This program is available to all students, grades 3-10. Teammates coordinators match our mentors with mentees based on a variety of categories and then students meet with their mentor during the school day for 30 minutes each week. This gives students access to another positive role model in their lives!

3. High quality and ongoing professional development

3.1

Please provide a narrative below describing the professional development and other activities provided to improve instructional effectiveness and use of academic data to guide instruction.

Our elementary paraprofessionals have completed the Project Para Training required by No Child Left Behind/ESSA. They are also encouraged to participate in ongoing training opportunities on their own and with the rest of the teaching staff. They often attend the statewide annual paraeducator conference and paraeducator trainings offered through ESU 8. Our preschool paraprofessional is certified with her child development associate certificate. All participate in ongoing training opportunities and staff development with the rest of the teaching staff.

Wheeler Central Schools has 18 certified faculty members with 42% of these having a Master's Degree 100% of the elementary teachers have an endorsement in elementary education. In the secondary grades over 80% of the instructional units are provided by teachers holding the appropriate endorsement. Average years of

experience in teaching are 15.8 years. Experienced teachers are involved in out-of-school time for mentoring. Recruiting efforts are based upon student needs and are examined in relation to qualifications of present staff. Staff meetings are regularly scheduled for every Wednesday after school & monthly all-staff school improvement meetings. In-services are held with all staff members to address student needs and assessments and modifications. Some teachers are shared between the elementary and the high school. Examples of professional development for teachers and aides are attendance and participation at workshops such as: Write Tools, CKLA Instructional training, Zearn Math PD, LETERS (Volume 1 and Volume 2), Marzano training, Anita Archer Vocabulary workshops, Nebraska Literacy Conference, ESU #8 Title I workshops, DIBELS training workshops, Reading Mastery training, Title I Parent Involvement Conference, Vocational Conferences, Technology Workshops, Nebraska Associated for Gifted conference, Nebraska ASD Network Conference, and all active staff participation in the Continuous School Improvement Process, correlated with state standards. Several staff members also attended the Executive Function Series offered through ESU 8.

4. Strategies to increase parent and family engagement

4.1	<i>Please provide a narrative below describing how the School-Parent Compact was jointly developed and how it is distributed.</i>
	<p>Parents have been included in developing and implementing the schoolwide plan. The parents received information through the school newsletter, parent conferences, etc. During parent conferences parents were given the opportunity to view and revise the Parent Involvement Policy. Parents and community members are also given the opportunity to view the compact during our Annual Title I meeting and at Family Literacy night. Parents are asked for input during the Title I Annual meeting and during parent-teacher conferences.</p> <p>At the start of each new school year, a copy of the compact is mailed to each family in the beginning of the year packet. Parents are asked to review the compact with their child and then both parents and students are asked to sign and return the compact with the rest of their paperwork.</p>
4.2	<i>Please provide a narrative below describing how parents were involved in developing the Title I Parent and Family Engagement Policy or Procedure.</i>
	<p>In the fall of 2002 the Wheeler Central Staff and Administrators discussed the Schoolwide project for our school. After discussion, the staff and administrators agreed 100 percent to develop a Schoolwide Title 1 plan. Mr. Hoesly, Superintendent, informed the board of education of our intentions to develop a Schoolwide Title Program. Parents were informed of our intentions to develop a Schoolwide program at the fall and spring parent conferences. Parents were invited to be a part of the committee that developed the Parent/Family Engagement policy.</p> <p>The Title I Parent and Family Engagement Policy is shared and reviewed at the annual Title I meeting and is updated, as needed.</p>
4.3	<i>Please provide a narrative below describing how and when the annual Title I parent meeting is/was held informing parents of the school's participation in Title I.</i>
	<p>This year's meeting was held on August 13, 2024 at our Back to School Bash and our Family Literacy Night was held on March 17, 2025. The event was posted on our school's Facebook page, school website, and posters were hung up around at area businesses. Flyers were also mailed to each student in their back to school packet.</p> <p>At Family Literacy Night, families came and took part in literacy games and activities following the meeting. Parents were given a link or a QR code to scan and complete the annual survey on a Google form. The link was also pushed out through a blast on our communication system and posted on our school Facebook page.</p> <p>Parents are also invited to review the Title I plan and discuss the Title I program at both fall and spring parent-teacher conferences.</p>

5. Transition Plan

5.1	<i>Please provide a narrative below describing the school's transition plan for incoming students to support, coordinate and integrate services from their previous program or school (i.e. Headstart and/or other Early Childhood Program to Elementary, Elementary to Intermediate, Intermediate to Middle School, Middle School to High School).</i>
	<p>Transition for Pre-School and Kindergarten</p> <p>The 2nd semester of 2009-2010 school year, a preschool was started at Wheeler Central for children ages 3 and 4. In 2018-2019, Wheeler Central extended the preschool day to four full days a week, available for students entering kindergarten the following year. Throughout the year, preschool students participate in multi-age activities with the other grades in our building (kindergarten, 1st and 2nd). During this time, students are able to become familiar with other teachers and students in the building.</p> <p>Each spring we hold a Kindergarten Round Up. The students who will start Kindergarten in the fall are invited to spend the morning with the existing Kindergartners. Parents are invited to attend an informational meeting and fill out any paperwork necessary for kindergarten entry. Our school nurse, administration, school counselor and local health department are available during the parent meeting to answer any questions. In the fall, we host a Back to School Bash, where students are invited to bring their supplies to their classrooms, meet the teacher, and tour the school. Parents also attend an informational meeting to review the school handbook, our Annual Title I meeting, and other information pertinent to returning to school. Then families are invited to a BBQ meal that is hosted in partnership with our local banks.</p> <p>New Student Orientation and Transition Plan</p> <p>Students transitioning during K-6th grade levels are ongoing through activities with other grade levels and monitored by elementary teachers. Parents have input through letters as well as conferences. The Sixth grade class goes to the 7-12 building for part of their daily classes and their schedule operates on the same 8 period bell schedule as the JH/HS, so they are familiar with some of the classrooms and teachers before entering seventh grade. They also have PE with grades 7-8, so they really get to know some of their peers in the middle school setting. They also hold a talk time with some of the upperclassmen where they can ask questions about what junior high and high school is like and the upperclassmen share stories and advice for incoming students.</p> <p>Grades 7-12 transitioning includes registration of classes, review of credentials and career interests and counseling.</p> <p>New student orientation plan includes a review of the student handbook with new students and parents and a walk through of the school. During the orientation the student and his/her family are encouraged to ask any questions and make the school aware of any special needs, such as physical, mental, religious, or cultural the student may have.</p> <p>Teacher assessments are in place after four weeks of school to review placements and/or any evaluations of students. All previous records of the students are reviewed for special needs and other assessments. Students returning to public school from homeschool are given the MAP test for their grade level to see where they are at academically.</p>
5.2	<i>Please provide a narrative below describing the school's transition plan for outgoing students as they move onto their next school / program / career. (i.e. Elementary to Intermediate, Intermediate to Middle School, Middle School to High School, High School to Post Secondary Schooling or Career).</i>
	<p>Transition for 6th Grade Students moving to Junior-High/High School Building</p> <p>Sixth grade students meet with the guidance counselor in the spring to discuss transition into Junior High. Sixth graders already attend half of their classes, including reading, language arts, science, PE, and music, in the high school building with several of the Junior High teachers. The school counselor gives the sixth graders a tour of the Jr/Sr High building and introduces them to the teachers they will have next year. She also explains to them some of the things that will be expected of them in Junior High.</p>

6. Strategies to address areas of need

6.1	<i>Please provide a narrative below describing how the Schoolwide Plan increases the amount and quality of learning time within or beyond the instructional day.</i>
<p>The Schoolwide plan utilizes assessment data to target student needs. Students considered at risk are then scheduled for some one on one time with our Title I teacher and/or paraprofessional to work on areas that need improvement. The MTSS team follows decision rules developed by the team to decide how a student will be placed in an intervention and WIN groups where that student fits best.</p> <p>Intervention is also provided by the classroom teacher at various times when their schedule allows. During this time, teachers also administer Acadience progress monitoring to track student progress. Students may also be identified by teacher recommendations and classroom performance. Teachers continually assess the needs of the students through Acadience data, chapter tests, daily averages of grades, State Standard Assessments, and MAPS Assessment, etc. Through this process, students are expected to show growth throughout the school year. Our goal for next year is to utilize common intervention/enrichment time and common planning time to have more of our highly trained teachers and staff available to provide intervention and enrichment.</p> <p>Once a student is identified as at-risk or somewhat at risk, then either the Title I teacher, classroom teacher and/or paraprofessional schedules time within that child's school day to work on targeted interventions for that child. Teachers are also available after school hours, when the need arises.</p> <p>An elementary homework club has been implemented to help students complete missing assignments and offer more instructional support beyond the regular school day.</p> <p>Summer school is offered to students that are identified as being at risk of falling behind in the months off for summer break.</p>	

7. Consolidation OR Coordination and Integration of Federal, State, or local Funds

7.1	Our LEA does not Consolidate Title I funds, with other Federal, State, and local funds. If you think your district does consolidate funds, contact your consultant. (It is common practice in Nebraska to not consolidate funds). <i>(If you choose not to consolidate, N/A is acceptable.)</i>
N/A
